When will the next Northern Alexandria Native Plant Sale be?

The **Northern Alexandria Native Plant Sale** is held twice a year. The spring sale is the last Saturday in April. The fall sale is the last Saturday in September. The next sale will be **Saturday, April 27, 2024**.

To have your email address added to the plant sale **email notification list**, send an email to Scott at scottknudsen@gmail.com with "Add me to native plant sale list" in the subject line & your name in the text.

The **website** for the Northern Alexandria Native Plant Sale is www.NorthernAlexandriaNativePlantSale.org.

The **Facebook page** for the sale is www.facebook.com/NorthernAlexandriaNativePlantSale.

What are some basic references for native plants in the Chesapeake Bay watershed?

A new guide titled "**Native Plants for Northern Virginia**" showcases an attractive variety of plants native to our area through the Plant NoVA Natives Campaign. To view it online, visit the campaign's website at www.plantnovanatives.org. This guide is available to be purchased at a table at this native plant sale.

The U.S. Fish & Wildlife Service published a good reference titled "**Native Plants for Wildlife Habitat and Conservation Landscaping: Chesapeake Bay Watershed**." To view it online and download a PDF file of the book, or to order it from the Maryland Native Plant Society in hard copy, visit the society's website page at mdflora.org/publications/forsale/nativeplants.html.

Douglas Tallamy, Professor of Entomology and Wildlife Ecology at the University of Delaware in Newark, has written "**Bringing Nature Home: How You Can Sustain Wildlife with Native Plants**." People rave about this terrific book. To learn more, visit www.homegrownnationalpark.org/tallamys-hub.

Where can I go to see native plant gardens in this area?

The **U.S. Botanic Garden** has a lovely "Regional Garden" among its gated outdoor gardens, which features Mid-Atlantic native plants selected for their form, ecological value, and horticultural qualities, highlighting the beauty of the region's flora. See www.usbg.gov/gardens-plants/outdoor-gardens.

The **U.S. National Arboretum** has a wonderful native plant trail known as the "Fern Valley Native Plant Collection." The collection is organized by habitat and geographic areas for plants of different regions of the eastern U.S. See www.usna.usda.gov/discover/gardens-collections/fern-valley.

Who else can I ask for more information about native plants?

The **Virginia Native Plant Society's** website is www.vnps.org and their local Potowmack Chapter runs an excellent listserv group. To view it and join, see vnps.groups.io/g/potowmack. The statewide organization runs its own listserv group at vnps.groups.io/g/vnps. The VNPS also has several Facebook groups.

The **Maryland Native Plant Society's** website is www.mdflora.org and they run an excellent listserv group as well. To view it and join, see groups.io/g/nativeplantseast. The society also has a Facebook group.
